A short block is an engine sub-assembly comprising the portion of the cylinder block below the head gasket but above the oil pan. An in-block cam engine includes the camshaft, timing gear, and any balance shafts. Overhead cam engines don't include those parts. They appeared post-war when mass production of consistent engine models became widespread, rather than hand-building of varying engines.

Cetane rating, also known as cetane number is a measurement of the quality or performance of diesel fuel.The higher the number, the better the fuel burns within the engine of a vehicle. The cetane number is similar to the octane rating in that it is a rating assigned to a fuel to rate the quality of its combustion. The difference is that octane rating rates gasoline whereas cetane rates diesel.
