### Archaeology and the Senses: Human Experience, Memory and ...

This book is a manifesto—prepare to be roused and challenged. Hamilakis claims that the discipline of archaeology must undergo radical changes and tackle head-on the difficult task of exploring the sensorial and affective dimensions of human experience. According to the author, a sensorial archaeology, one that aims to evoke, rather than to represent, sensorial, affective, and

**ARCHAEOLOGY AND THE SENSES**

Despite the fundamental importance of the senses in human experience, archaeologists have, until recently, tended to neglect the abundant sensory dimensions of the material world they investigate, with the exception of the sense of sight, which has dominated archaeological theory and practice.
