Help us to keep the forum and storage/transfers of freeware up and running. This year the expenses have exploded! The activity caused by the LevelUp 737NG has our servers glowing and we are looking at an expense of \$2000,- USD for January alone! This will settle down to lower numbers in the months to come, but anticipated expenses are still as high as 1000,- per month.

The Boeing 737 is a narrow-body aircraft produced by Boeing at its Renton Factory in Washington. Developed to supplement the Boeing 727 on short and thin routes, the twinjet retains the 707 fuselage cross-section and nose with two underwing turbofans. Envisioned in 1964, the initial 737-100 made its first flight in April 1967 and entered service in February 1968 with Lufthansa.

Prepar3D. Prepar3D originates from Microsoft Flight simulator X, but was further developed as training software for professionals by aircraft manufacturer Lockheed-Martin. With this, the realism of the flight simulator has also greatly improved compared to FSX. Because the software is intended for professional use, it may not be used other than for training purposes.
