Microsoft Windows Remote Desktop Services (Terminal Services) is a component of the Windows Server operating systems. Citrix XenApp(Presentation Server) uses this system component and extends it or facilitates scalability and administration.

Microsoft Windows Remote Desktop Services vs. Citrix ...

I was a Microsoft MVP in Terminal Services, a.k.a. Remote Desktop Services for a lot of years, right up nearly until the point when Microsoft stopped separating out RDS MVPs. And in my time with that group, I learned a lot about Microsoft's inner thought processes as they relate to the RDS role in Windows Server.
