GeoServer User Manual¶ GeoServer is an open source software server written in Java that allows users to share and edit geospatial data. Designed for interoperability, it publishes data from any major spatial data source using open standards. This User Manual is a comprehensive guide to all aspects of using GeoServer.

GeoServer User Manual — GeoServer 2.21.x User Manual

In contrast with the standard recovery process, the advanced recovery completely hides the words entered. Instead of writing whole words in a shuffled order, the user inputs individual letters on the PIN pad. The connected computer never knows what letter is being entered, as the layout of the PIN pad continually changes.
