GDP is the value of all newly produced final goods and services produced in an economy within a given time period. GDP can be analysed in terms of the output produced by different industries in the economy, or alternatively by expenditure on goods and services made by households, businesses and the government.

A government's policy regarding taxation and public spending. It can be loose (with the emphasis on increased spending and lower tax revenue to boost economic activity, with the acceptance of a wider fiscal deficit) or tight (with the emphasis on cutting spending and raising extra tax revenue, resulting in a slower-growing economy).
