Humanistic psychology is a psychological perspective that arose in the mid-20th century in answer to two theories: Sigmund Freud's psychoanalytic theory and B. F. Skinner's behaviorism. Thus it was referred to as the "third force" in psychology. The school of thought of humanistic psychology gained traction due to key figure Abraham Maslow in the 1950s during the time of the humanistic movement.

### Humanistic psychology - Wikipedia

Over the years, developmental psychology has been influenced by numerous theories and models in varied branches of psychology (Burman, 2017). History of developmental psychology Developmental psychology first appeared as an area of study in the late 19th century (Baltes, Lindenberger, & Staudinger, 2007).
