HP Tuners Bulletin Board

For years, the largest "B" engine was the 383 cubic inch V8. The company created a raised block with the 1959 cars; the new "RB series" would go up to 440 cubic inches. The numerous engine sizes raised costs a bit, so Chrysler started working to standardize all the big block engines on a 4.32" bore (according to racer and historian Rick Ehrenberg).). Using that bore with the 383's existing ...
