Opel Zafira Engine Problems

The Opel Z18XER engine uses a cast grey iron block with five-bearings crankshaft and aluminum head with dual overhead camshafts (DOHC) and four valves per cylinder (16 valves in total). The engine is equipped with a sequential fuel injection system, double continuous variable cam phasing (DCVCP) and electronic ignition system.

Opel Z18XER 1.8 Ecotec engine: review and specs, service data

On 16 November 1925, Vauxhall was acquired by General Motors Corporation for US\$2.5 million. At the time, the purchase was not popular among senior U.S. GM executives. Vauxhall was only making seventeen cars per week and was in a financial mess. The company's image and target market were gently but firmly changed over the next five and more years, marked particularly by the introduction in ...

Vauxhall Motors - Wikipedia

Opel Monza; Overview; ... If that wasn't enough trouble for Opel, they also experienced gearbox problems. The engine range for the Monza A1 was the 3.0S, the 2.8S, the newly developed 3.0E and later the 2.5E (the 3.0 had 180 bhp and 248 Nm with fuel injection), gave a wide range. The three-speed Borg Warner automatic transmission from the ...
