Natural theology, once also termed physico-theology, is a type of theology that seeks to provide arguments for the existence of a deity based on reason and ordinary experience of nature.. This distinguishes it from revealed theology, which is based on scripture and/or religious experiences, also from transcendental theology, which is based on a priori reasoning.

A guide to designing a survey questionnaire. If we added a choice of "Football practice", we may find that football practice is someone's favorite "activity" at school, but it is not relevant to this particular question which asks "Which subject do you enjoy the most at school?". Consistency is very important in writing the list of responses. All of the responses should be similar so that no ...
