The Performance Ranking of Scientific Papers for World Universities or NTU Ranking is a ranking system of world universities by scientific paper volume, impact, and performance output. The ranking was originally published from 2007 to 2011 by the Higher Education Evaluation and Accreditation Council of Taiwan (HEEACT) and has been published since 2012 by the National Taiwan University.

Performance Ranking of Scientific Papers for World Universities

Although scientific journals are superficially similar to professional magazines, they are actually quite different. Issues of a scientific journal are rarely read casually, as one would read a magazine. The publication of the results of research is an essential part of the scientific method. If they are describing experiments or calculations ...
