Your complete backup plans should protect against even a site disaster by providing for True Disaster Recovery. Tying it All Together. A complete backup plan has to provide for recovery of data lost an hour or months ago, against a ransomware attack, a failed server, or even a complete site disaster.

The Three Parts of a Complete Backup ... - My TechDecisions

It's the backup to Plan A, of course.... It's your contingency, your lifeline, your sanity when the going gets rough and Plan A falls through. The thing is, we're all so busy these days getting our first priorities squared away, we barely have time to consider the "what if" scenarios that are lurking out there.
