The Thompson/Center custom shop continues to offer the Bee in the Contender carbine, and as far as I know, that's about the size of it as rifles of current production go. When it comes to choosing powders for .218 Bee handloads, IMR-4227 has long been a popular choice, and H4227 works equally well.

.218 Bee - RifleShooter

a 14" barrel, similar to a Thompson Contender. Recoil is severe with these near MAX loads. You should consider 10% less for starting loads. However, with something like 2400, which is really a pistol powder, too little can be as dangerous as too much. It's a big case. With the powder down at the end near

Reloading The .45/70 - Reload Ammo

Thompson Center, now part of Smith & Wesson, has a well-earned reputation for making accurate muzzle-loaders, bolt-action rifles, and of course, the innovative G2 Contender single-shot pistol firearms. What you may not know is that the T/C folks have been steadily broadening their product line. The T/CR22 is a semi-automatic rifle chambered in ...
