Wikibooks is a useful resource if you're curious about a subject, but you couldn't reference it in academic work. It's also worth noting that although Wikibooks' editors are sharp-eyed, some less scrupulous contributors may plagiarize copyright-protected work by other authors. Some recipes, for example, appear to be paraphrased from well-known chefs.

### [Books] Writing Windows Vxds And Device Drivers

VxDs written for Windows 3.x can be used under Windows 9x but not vice versa. History. Prior to the advent of Windows, DOS applications would either communicate directly with the various pieces of hardware (responding to interrupts, reading and writing device memory etc.) or go through a DOS device driver. As DOS was not multitasking, each application would have exclusive and complete control over the hardware while running.
